Hi Joe -

Thanks so much for getting back to me! I will be going through the documents over the next few days and I will let you know of any additional information I may need.

Thank you,

Abby Gormley

Hi Abigail – I have received your April 11, 2020 e-mail message to Pat Seppi concerning the Ringwood Mines/Landfill Superfund site. Please note that most of the primary technical documents concerning the Ringwood site can be downloaded from our webpage located at <https://cumulis.epa.gov/supercpad/cursites/csitinfo.cfm?id=0200663> . Please access the Site Documents and Data tab located in the left column of the page to access on-line documents. The administrative record files contain technical documents which support EPA's selection of site remedies. The Records of Decision and Proposed Plans provide a good summary of the site history. If you require additional information regarding the site, please feel free to contact me at this e-mail address or (212) 637-4413.
